

## APPLICATION-SPECIFIC ELECTRICAL CONNECTION TECHNOLOGY FOR MORE THAN 35 YEARS

Since 1981, HELLWIG GmbH Analytical System Electrics produces electrical special cables, conductors and systems.

### Manufacturer and supplier of special cables and special conductors, from standard solutions to high-tech systems

- Quality-oriented corporation from Germany
- Audited complaint rate < 0.01%
- Flexibility and partnership cooperation
- RoHs and Reach compliant
- Delivery reliability
- 100% testing & final inspection

### Client-specific cable assembly

- Innovative, tailor-made solutions
- Individual customer support from initial sampling to ongoing production
- Batch sizes starting at one piece upwards
- Hand-made cable assembly, production of small series and special series: precision soldering, PCB soldering, construction of cable harnesses
- Supply of electrical connection systems of all kinds

**Together we develop your application-specific connection solution**

## PROFESSIONAL CONSULTATION AND PRODUCTION ACCORDING TO CUSTOMER SPECIFICATIONS

### Tested, approved, and licensed by the following organisations of standardisation

- Underwriters Laboratories (UL)
- Canadian Standards Association (CSA)
- MPANRW according to DIN EN ISO 9001/14001

### Applications and industries

- Measuring | operating | regulating
- Mobile machines
- Traffic engineering
- Automation technology
- Military engineering
- Aeronautics and aerospace engineering
- Process engineering
- Data systems and information technology
- Medical engineering
- Renewable energies

**Your strong development partner for application-specific electrical  
connection technology. Trust in over 35 years of expertise!**
